Total Credits: 120

** Pre-requisite (not co-requisite) for BIOL 499

One of these courses must be used to meet the African American Experience requirement and at least one of the others must meet the Multicultural Experience requirement

$ Registration for BIOL 499 requires approval of Chair of the Undergraduate Academics Committee, Department Chair, and Instructor

General Note: The minimum University requirement for graduation is 120 hours; in Biology you will usually complete between 121-125 hours depending on selections.

SPECIAL NOTES: For all programs and concentrations in the Department of Biological Sciences, a grade of "C" or better is required for all courses.

Revised Fall 2025

REQUIREMENTS: Students must take each of the five biology core courses (101, 102, 215, 210 and 310) in order and earn a "C" or higher before progressing to 300 or 400 level Biology courses.

Biology Seminar: Seminars provide an opportunity to apply biological knowledge to a specific, applied setting. All Biology majors must complete one seminar course as part of their curricula. The approved courses include, but are not limited to:

BIOL 194 Introduction to Biology Professions
BIOL 196 Interdisciplinary Science Seminar
BIOL 297 Frontiers in Neuroscience
BIOL 298 History of Biology
BIOL 299 Applied Scientific Writing
BIOL 399 Professional Scientific Writing

Biology Electives: Biology electives are upper-level courses offered by the Department of Biological Sciences. Must be a 300-level or higher, or 200-level with permission of the Department Chair. Twenty six (26) credit hours biology elective (combination of 3-CR and 4-CR courses) is required. Students may substitute **one biology elective** with a STEM course from another department (e.g. CHEM, AGNR, PSYCH, PUBH). Nursing courses may not serve as substitutes for Biology electives.
BIOL 207 and BIOL 208, together, may be used as a substitute for either BIOL 307 or BIOL 370.

Open electives: Any department outside of Biology, although a list of recommended/approved Open electives is below. Must be a 300-level or higher, or 200 level with permission of the Department Chair. **Introductory, Survey, and / or Fundamentals courses do not serve as open electives. Non-STEM majors courses (e.g. BIOL 103, 107, 111) will not fulfil the biology elective or open elective requirement.**

SPECIAL NOTES: For all programs and concentrations within the Department of Biological Sciences, a grade of "C" or better is required for all courses.

Approved Biology electives
BIOL 211 Principles of Neuroscience
BIOL 302 Comparative Vertebrate Anatomy
BIOL 303 Developmental Biology
BIOL 311 Advanced Neuroscience
BIOL 307 Principles of Physiology
BIOL 315 Behavior
BIOL 316 Physiology of Reproduction and Development
BIOL 317 Principles of Virology
BIOL 322 Microbiology*
BIOL 325 Medical Microbiology
BIOL 348 Health Disparities in America
BIOL 349 Biology in the Media
BIOL 352 Histology *
BIOL 370 Human Anatomy
BIOL 375 Molecular Genetics and Genomics
BIOL 407 Biology of Cancer
BIOl 408 Pathophysiology
BIOL 410 Advanced Molecular Biology*
BIOL 411 Pharmacology
BIOL 415 Advanced Cell Biology*
BIOL 420 Immunology
BIOL 421 Microbial Physiology and Ecology*
BIOL 442 Biology of Aging
BIOL 464 Toxicology
BIOL 470 Biotechnological Techniques*

**May be an acceptable substitute for Capstone 1, with instructor approval and completion of a research-based project within the course.*

Approved Open Electives:

CHEM 203 Water Chemistry
CHEM 306 Instrumental Analysis
CHEM 310 Environmental Chemistry
PUBH 215 Introduction to Epidemiology
PUBH 234 Global Health
PUBH 236 Substance Use and Abuse
PUBH 330 Introduction to Chronic Diseases
PUBH 339 Human Sexuality
PUBH 349 Health Disparities
PUBH 402 Environmental Health
PSYC 208 Health Psychology
PSYC 300 Neuropsychology
PSYC 316 Developmental Psychology
PSYC 402 Abnormal Psychology
KINE 302 Fundamentals of Kinesiology
KINE 319 Biomechanics
NTRS 261 Aquaculture
NTRS 309 Aquatic Ecology
NTRS 311 Mammalogy
NTRS 312 Ornithology
NTRS 313 Limnology
NTRS 314 Ichthyology

Senior Capstone: All biology majors on the **General Biology concentration** must complete Capstone 1 (either BIOL 301 or BIOL 451) and Capstone 2 (BIOL 499). All Biology majors on the **Professional Biology concentration** must complete Capstone 1 (BIOL 301); which entails completion of a research-based or approved experiential learning internship, and Capstone 2 (BIOL 499). No waivers or substitutions. BIOL 454 (Comprehensive Capstone) is for students who are graduating over the summer and need both Capstone 1 and Capstone 2. Capstone 1 and 2 may not be taken concurrently.
